Material donations

Quality furniture, clothes, household goods, food, hygiene, baby, work and access items, as well as books, games, craft and learning materials are often needed for newcomers, or for those making a transition for example from initial accommodation into a new house. Please only offer clean items in a condition you would be happy to receive.

Please 'follow' local organisations to watch out for needs lists and requests that you, your business or communities may be able to help with through donations or awareness raising in your networks.
