ESOL Learners with Additional Learning Needs: A set of curated resources

Illustration by Nick Ellwood

Adult ESOL learners come to ESOL provision with a range of language and pastoral needs. Along with these, learners may

have additional learning needs which may not always be identified or met in a timely manner due to lack of resources. This is a set of curated resources and sources for training to help upskill practitioners.

We hope this will be a good source of reference for anyone working or volunteering in this field.
