

New Ukraine Hub Launched

We're excited to launch our new resource tool for Ukrainians, hosts and organisations interested in or already supporting Ukrainians in the UK.

The Ukraine Hub resource provides help and support on topics including the useful information about the Ukraine scheme, hosting and sponsorship, welcome and integration, resources and support organisations.

You will also find some frequently asked questions for Ukrainian individuals in the UK and for employers, landlords and services encountering Ukraine scheme visa holders, as well as how to access events and training.
