Lived experiences of Roma people in England and Wales

How do Roma people experience life in England and Wales?

Migration Yorkshire has worked with the Office for National Statistics (ONS), Roma Support Group and the University of Sheffield on research exploring Roma people’s experiences and needs.

Using interviews, creative activities and focus groups, the project explores areas including health, education, employment, housing and access to public services, with Roma community members helping to shape the research.

Find out more about the Roma research project.
