Country of birth dashboard

View in full screen mode below or follow this link to see our country of birth local migration data dashboard which provides a detailed summary of the non-UK born population based on Census 2021 data for local authority areas in Yorkshire and Humber.

How to use the dashboard?

Watch our video user guide to learn what's included in the dashboard and how to use it. Alternatively, read our user guide for the country of birth dashboard.

Time stamp links that go directly to instructions about a specific section or function of the dashboard can be found in the description directly under the video.
